Global Warming Hoaxer James Hansen Denounced as Fraud by Former Boss – John Hawkins' Right Wing News

Of all the cheap frauds pushing the global warming hoax, NASA's profiteering James Hansen is the most shameless, second only to Al Gore himself. Hansen has repeatedly been caught passing phony data. Despite granting 1,400 on-the-job (and on our dime) interviews, Hansen claims to have been muzzled by the Bush Administration. At the same time, he demands prison sentences for those who question the hoax.

Fortunately, the scientific community is beginning to pierce the veil of misinformation spun by Hansen, Gore, and their liberal establishment coconspirators. From a press release from the U.S. Senate Committee on Environment and Public Works:

> Retired senior NASA atmospheric scientist, Dr. John S. Theon, the former supervisor of James Hansen, NASA's vocal man-made global warming fear soothsayer, has now publicly declared himself a skeptic and declared that Hansen "embarrassed NASA" with his alarming climate claims and said Hansen was "was never muzzled." Theon joins the rapidly growing ranks of international scientists abandoning the promotion of man-made global warming fears. …
>
> "Hansen was never muzzled even though he violated NASA's official agency position on climate forecasting (i.e., we did not know enough to forecast climate change or mankind's effect on it). Hansen thus embarrassed NASA by coming out with his claims of global warming in 1988 in his testimony before Congress," Theon wrote.

As for the computer models that constitute the sole evidence for global warming's validity:

> Theon declared “climate models are useless.” “My own belief concerning anthropogenic climate change is that the models do not realistically simulate the climate system because there are many very important sub-grid scale processes that the models either replicate poorly or completely omit,” Theon explained. “Furthermore, some scientists have manipulated the observed data to justify their model results. In doing so, they neither explain what they have modified in the observations, nor explain how they did it. They have resisted making their work transparent so that it can be replicated independently by other scientists. This is clearly contrary to how science should be done. Thus there is no rational justification for using climate model forecasts to determine public policy,” he added.

The bloom may be off the rose for Hansen, Gore, et al.’s preposterous campaign against human activity:

> Gore faces a much different scientific climate in 2009 than the one he faced in 2006 when his film “An Inconvenient Truth” was released. According to satellite data, the Earth has cooled since Gore’s film was released, Antarctic sea ice extent has grown to record levels, sea level rise has slowed, ocean temperatures have failed to warm, and more and more scientists have publicly declared their dissent from man-made climate fears as peer-reviewed studies continue to man-made counter warming fears.

Nonetheless, if Obama, Reid, Pelosi, & Co. have the audacity to flush $1 trillion down the toilet to “stimulate” the economy, they are certainly capable of pressing forward with plans to kneecap industry in the name of this farce.

Only Big Government can keep Hansen’s preposterous hoax alive.
